Subject: Request for a summer internship

Madam, Sir,

I'm Sirine Bourcheda, a second-year student at ENSI, specialized in Software Engineering. I am writing to express my keen interest in obtaining a summer internship in the field of mobile and web development with your esteemed company. I am actively searching for a challenging internship that will enable me to acquire valuable skills and experience in web/mobile development, as well as contribute to innovative projects.

As you can see in my Curriculum Vitae, I have acquired during my academic projects a practical experience in web and mobile programming as well as a good knowledge of several web programming languages that will allow me to adapt quickly to your company's requirements. These projects have also allowed me to work in a team and to develop my communication skills.

I am confident that my qualifications are in line with your company's expectations, and that an internship with your organization would be a valuable opportunity for me to develop new skills and grow professionally. I believe that my passion for mobile and web development, as well as my ability to work collaboratively and my open-minded approach, are strengths that I will put at your disposal.

Thank you for taking the time to review my application, and I would be honored to participate in an interview

Yours sincerely

Sirine Bourcheda
